[OVER]

The aim of the Executive order of September 4, 1924, under which this examination is made, is to obtain information as to the physical condition of appointees to the classified civil service with a view to promoting efficiency and minimizing accidents and claims under United States employees' compensation laws.

Notes for Examining Physician

WEIGHT.—Males, without clothing, and also in ordinary clothing without overcoat or hat (weigh twice); females, clothed, but without wrap or hat. If overweight, state whether due to bone and muscle or to fat.

HEIGHT.—Without boots or shoes; observe that no appliances are used to increase.

The examination should include the following observations:

1. **Eyes.**—Ptosis; discharge; corneal scar; pterygium. In recording distant vision consider 20 feet as normal and report all vision as a fraction with 20 feet as numerator and the smallest type read at 20 feet as denominator. If glasses are used, record for each eye the finding with and without glasses. Near vision must be reported. In testing vision without glasses the applicant or appointee should be instructed to *remove the glasses at least one-half hour before testing uncorrected vision.*

2. **Ears.**—Evidence of middle ear or mastoid disease; condition of drums; discharge. In recording hearing, record 20 feet as normal distance for conversational voice and record deviation from normal as fraction with 20 as denominator and actual distance as numerator.

3. **Nose.**—Ability to blow through each nostril. If free, a speculum examination would not be indicated.

4. **Mouth and throat.**—Missing teeth, pyorrhea; tonsils, hypertrophy or disease.

5. **Gastro-intestinal.**—Ulcers, inflammations, etc.

6. **Thyroid.**—Presence of tumor in neck and tremor, exophthalmos; nervous high-strung disposition, especially in women.

7. **Heart.**—Murmurs. State whether functional or organic. If valvular disease exists, state whether or not it is fully compensated. Arteriosclerosis.

8. **Lungs.**—It is necessary that the auscultatory cough be used. If tuberculosis is present, state whether active or arrested; if arrested, state your opinion as to how long it has been quiescent. Sputum to be examined for tubercle bacilli in all suspected cases.

9. **Hernia.**—Give details as to size, location, etc., and whether well-fitting truss is worn. Inguinal hernia exists when ring is enlarged and on coughing visceral impulse is felt which follows the finger on withdrawal.

10. **Varicocele.**—If varicocele is present, state approximate size—e. g., size of walnut, lemon, etc.

11. **Flat foot** of such a nature as to incapacitate or become aggravated by work or be alleged later to have been caused by accident or occupation. By "flat foot," as used in this form, is meant a *weak* foot with impaired function, the term being equivalent to "fallen or misplaced arch," an abnormal condition. Impairment of function is the point to be noted. An anatomically flat foot, but strong, is not disqualifying.

12 and 13. Scars, deformities, atrophies, and paralyses should be noted, but it is not important that small insignificant scars or blemishes which might be referred to as marks of identification be recorded.

14. This entry should include symptoms and full history of any mental or nervous abnormality.

15. Urinalysis to be made in case of persons over 40, and in all cases where arteriosclerosis, nephritis, or diabetes is suspected.

Record of urinalysis, if made: Sp. gr. 1.019 Albumen no Sugar no Casts no

Blood pressure: Mm. Hg. systolic 125 Mm. Hg. diastolic 80

If tachycardia is present, give pulse rate: Sitting 74 Immediately after exercise ..... Two minutes after exercise ..... Cardiac reserve .....
(Good, fair, or poor)

I have found this applicant abnormal under the following headings: no abnormalities except moderate flat feet & mean glances & tonsils enlarged.

In my opinion, applicant is capable of performing duties involving arduous physical exertion.

Washington, D. C.

Dear Mr. Hoover:

It has recently come to my attention that Joseph L. Schmit, a graduate of our University and now located at Sioux City, Iowa, is an applicant for a position with the Federal Bureau of Investigation.

I became very well acquainted with Mr. Schmit while he was a student at the University and our friendship has continued since he graduated. My respect for him prompts me to write this letter to you in his behalf.

Mr. Schmit entered the University in 1933 and graduated from our school of law in June, 1938, receiving the degree of LL.B. cum laude. Not only was Mr. Schmit an excellent student, but he was also a leader among his fellow students and participated with credit in various student activities. He earned part of his expenses by waiting on tables in our dining hall. His morals were excellent and he was loyal and dependable in every way.

During his senior year he was on the NYA program and assigned to the Secretary's office. He assisted on several projects involving the study of tax delinquencies and the making of a county farm ownership atlas. It was very evident that he could assume responsibility, that he had initiative, that he was thorough in his work, and that he had an alert and analytical mind.

Before he graduated I discovered that he was a "natural" in accountancy. At the present time he is employed in Sioux City, Iowa, by a certified public accountant; and during his two and a half years with this accounting firm he has completed a correspondence course in accountancy; and I believe that by this spring he will have met the Iowa professional requirements, which will permit him to take a CPA examination.

During the past few years it has been my pleasure to have met quite a few FBI agents who were here investigating student applicants, and I believe that I can appreciate the type of young man that you are seeking. To me Mr. Schmit represents that type. It is, therefore, with sincere pleasure that I recommend Mr. Schmit for your serious consideration.

Respectfully yours,

C. S. Ball

The kids all have a good education and he has heard older residents talk of the family and the applicant and they are all well spoken of. BALL advised that while the Applicant was attending the University he became interested in an accounting course put out by the American Academy of Accounting, Chicago, Illinois, which BALL had and that the Applicant studied this course and made rapid progress. After he finished school, BALL was instrumental in securing him a position with CHARLES WILLIAMS, Davidson Building, Sioux City, Iowa, a tax expert. He has recently learned from the Applicant that he will soon take his C. P. A. examination and BALL says he would bet a hundred to one that he will pass the examination.

J. H. JULIAN, Dean of the University of South Dakota and Vice President, who is given by the Applicant as a reference, advised that all he could say for the Applicant is that he is absolutely all right in every way and one of the cleverest boys he has ever had the pleasure of knowing. He advised that the Applicant is honest, industrious, possessed of a good character and has a lot on the ball. The Applicant is one of ten children and his father is a fine old gentleman. He has often heard the father say this, that his children are his fortune and the father is certainly to be commended for making an education possible for them all. He said he would recommend the Applicant without reservation.

Mrs. WILLIAM C. McBEATH, 225 North University Street, Vermillion, South Dakota, who is given by the Applicant as a reference, stated that the Applicant roomed in her home while attending the University and that he was one of the finest boys she had ever known. She advised that they have taken college boys to room for the past twenty years and that she never saw one better than the applicant. She said he was reliable and had no bad habits whatever. She said he was a fine looking boy with a nice personality.

Dr. WILLIAM McBEATH, a retired Dentist, who is given by the Applicant as a reference is the husband of Mrs. McBEATH, referred to above. He advised that the Applicant resided in his home while attending college and was a fine boy and nothing he could say about him would be too good. He said the boy was an excellent student and made much of his money by preparing briefs and other school work for the students who had more money than the applicant and less of a desire for knowledge.

H. W. FRANKENFELD, Registrar of the University of South Dakota, Vermillion, South Dakota, made available to Agent the record of the Applicant, which shows that JOSEPH LUKE SCHMIT entered the University September 18, 1933, in the College of Arts and Sciences. He gave his address as Castlewood, South Dakota, and the date of his birth as April 29,

The Applicant received his LLB Cum Laude degree June 6, 1938.

Mr. FRANKENFELD advised that the Applicant was way above the average and was a fine kid. He was cheer leader and most active in student affairs. He was a leader but not a bit obnoxious and not the least radical and considered a loyal American in every way. He was absolutely honest, dependable and cooperative in every way. The father of the applicant is an unusual man and a fine old gentleman. He has had ten children at the University, nine of whom have graduated including the applicant and RAY, the youngest, is now in attendance at the University. All of the family have been good students and nothing whatever is known that is detrimental to any of them. Their names are AGNES, ANGELINE, HELEN, JOHN. WILLIAM, MARCUS, MARION, MATTHEW, SUSAN, RAY, the one now at the University, and JOSEPH, the applicant.

Mrs. RUBERTA P. ELLIS, in charge of the East Hall Dormitory, advised that the applicant waited table from 1933 to 1938, that he was a good worker and a fine young man. She also had known his mother who has been dead some four or five years and states that his father is a fine man.

THE FBI PLEDGE FOR LAW ENFORCEMENT OFFICERS

Humbly recognizing the responsibilities entrusted to me, I do vow that I shall always consider the high calling of law enforcement to be an honorable profession, the duties of which are recognized by me as both an art and a science. I recognize fully my responsibilities to defend the right, to protect the weak, to aid the distressed, and to uphold the law in public duty and in private living. I accept the obligation in connection with my assignments to report facts and to testify without bias or display of emotion, and to consider the information, coming to my knowledge by virtue of my position as a sacred trust, to be used solely for official purposes. To the responsibilities entrusted to me of seeking to prevent crime, of finding the facts of law violations and of apprehending fugitives and criminals, I shall give my loyal and faithful attention and shall always be equally alert in striving to acquit the innocent and to convict the guilty. In the performance of my duties and assignments, I shall not engage in unlawful and unethical practices but shall perform the functions of my office without fear, without favor, and without prejudice. At no time shall I disclose to an unauthorized person any fact, testimony, or information in any pending matter coming to my official knowledge which may be calculated to prejudice the minds of existing or prospective judicial bodies either to favor or to disfavor any person or issue. While occupying the status of a law enforcement officer or at any other time subsequent thereto, I shall not seek to benefit personally because of my knowledge of any confidential matter which has come to my attention. I am aware of the serious responsibilities of my office and in the performance of my duties I shall, as a minister, seek to supply comfort, advice and aid to those who may be in need of such benefits; as a soldier, I shall wage vigorous warfare against the enemies of my country, of its laws, and of its principles; and as a physician, I shall seek to eliminate the criminal parasite which preys upon our social order and to strengthen the lawful processes of our body politic. I shall strive to be both a teacher and a pupil in the art and science of law enforcement. As a lawyer, I shall acquire due knowledge of the laws of my domain and seek to preserve and maintain the majesty and dignity of the law; as a scientist, it will be my endeavor to learn all pertinent truth about accusations and complaints which come to my lawful knowledge; as an artist, I shall seek to use my skill for the purpose of making each assignment a masterpiece; as a neighbor, I shall bear an attitude of true friendship and courteous respect to all citizens; and as an officer, I shall always be loyal to my duty, my organization, and my country. I will support and defend the Constitution of the United States against all enemies, foreign and domestic; I will bear true faith and allegiance to the same, and will constantly strive to cooperate with and promote cooperation between all regularly constituted law enforcement agencies and officers in the performance of duties of mutual interest and obligation.

Re: Special Agent J. L. SCHMIT
45-DAY EFFICIENCY REPORT

Dear Sir:

This agent arrived in this division on March 4, 1941, for his first office of assignment. This agent has both legal and accounting training. He is rather small in stature, but makes a good appearance. He is neat in his dress, and has a fairly good personality. Since his arrival in this territory he has been assigned general investigative matters, and has made investigations in some matters involving national defense and internal security cases, all of which have been entirely satisfactory. He has been for the last ten days assisting the resident agent at Fort Worth, Texas, and I have been advised by the resident agent in that city that the work he is performing has been satisfactory, and that he makes contacts easily.

This special agent is a fair automobile driver, a fair typist, and possesses above average ability in dictation for an agent of his length of service. He appears to possess a very good intelligence, and to be of a temperament that reflects calmness. He is inclined to be a good organizer so far as his work is concerned. His reports have necessitated an average amount of supervision. He is apparently conscientious, loyal, and amenable to discipline. I have been informed that in a recent firearms training he exhibited a good knowledge of the use of firearms, and could be considered average for his length of service. It is not thought at this time, however, that he has had sufficient experience to be classified for use in dangerous assignments.

RECORDED

I am of the opinion that this special agent has possibilities of developing into a good average special agent in this service. I am not of the opinion that he at this time possesses administrative, supervisory, or executive ability.

CHIEF CLERK

Very truly yours,

H. H. Clegg

Schmit is 24, single, a legal resident of Sioux City, Iowa, and was born in Castlewood, South Dakota.

He does not have a working knowledge of any foreign language.

He has an LLB from the University of South Dakota.

The reports are that he is a little slow in thought and expression, is interested, and is average.

I think he is average. I think he is all right. I don't think he will become better than average in the immediate future.

Re: Special Agent JOSEPH L. SCHMIT
SPECIAL EFFICIENCY REPORT

TBB

Dear Sir:

This special efficiency report is submitted in compliance with Bureau letter of September 2, 1941, and also in view of this Agent's transfer to the New York Field Division.

67-116851-29

Agent Schmit arrived at this office March 4, 1941, for his first office of assignment. He is a young man of pleasing appearance, is very neat in his attire, may be considered as shy at first but has the type personality that is impressive and grows stronger the longer one knows him. In my opinion he possesses above the average intelligence, has a good background, and his investigations reflect that he is above the average investigator for his length of service. For the last several months he has been assigned with the resident agent at Fort Worth, Texas, and his work in that district has consisted of assignments of various nature, and in all such assignments he has made a good account of himself.

He is attentive to administrative detail, utilizes initiative in his investigations, and his reports are clear and concise. He has above average dictating ability. He is a good automobile driver, and is considered above average in connection with firearms. Agent Schmit has not been assigned matters involving danger, but with more experience and under proper supervision I feel that he could be used advantageously in this connection. I have observed this Agent offering testimony, and although he was slightly nervous for his first experience, he made an excellent account of himself on the witness stand. This Agent is sincere, is thoroughly loyal to this Bureau, and is extremely interested in his work. I am not of the opinion that he possesses executive or supervisory ability, but in view of this young man's intelligence he may develop administratively with further experience. Agent Schmit has completed twelve weekly conferences for newly appointed special agents.

B. 2.

The Federal Bureau of Investigation has been designated as the sole civilian Government investigative agency, having jurisdiction over the investigation of matters pertaining to the national defense, that is, espionage, sabotage, registration of agents of foreign principals and the like. Further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, the National Motor Vehicle Theft Act, and numerous others. The Federal Bureau of Investigation has also been designated by Congress as the agency officially responsible for the tabulation and dissemination of police statistics for the entire country. Under an Act of Congress these statistics are gathered and are distributed to thousands of interested police and affiliated agencies each quarter so that trends of crime, crime records, and crime control can be known to those to whom it is of most interest. Further than this, the Federal Bureau of Investigation has been designated as the agency having jurisdiction over the classification and maintenance of fingerprint records, not only on a national basis, but on an international basis. We have some thirty-one million sets of fingerprints on hand today. We are receiving the fingerprint records of all persons enlisted or being inducted into the Army and enlisted in other military services. Thousands of persons in public utility positions are fingerprinted and the prints are retained in our files. Those working in national defense industries on many occasions are fingerprinted, their prints being included in our files. Our Government employees' prints are included. We are receiving thousands of criminal fingerprints from all police agencies in the country daily and it is essential that we immediately be able to notify the arresting agency of the criminal record of the individual because he may be wanted for more serious crimes in other sections of the country and if he is to be released on a mere vagrancy or other charge, he may be set free to continue his depredations on society. This Bureau, together with many other foreign countries, participates in the international exchange of fingerprints. Hundreds of international crooks are brought to task yearly through the media of this service we have rendered.

Our Criminology Laboratory handles the scientific examination of evidence in cases investigated by the Federal and local law enforcement agencies. A great deal of their work is done in the examination of suspected sabotage cases at the present time. The scientists in that Laboratory have lectured throughout the country on bombs and explosives so that local police agencies may be adequately prepared to handle any such matters which might arise under their jurisdiction.

There are contained in our Files Section the files of hundreds of thousands of individuals whose activities are of the greatest importance to the country today. The work of the Files Section and the records of that section which have to do not only with the investigation of kidnaping, extortion, bank robbery, and like cases but also the investigation of our espionage, sabotage, foreign agent cases, and others, are of course accessible to employees working in that unit. It is most essential that only the most trusted employees be so assigned.

B. 5.

The work of the Federal Bureau of Investigation is of the utmost importance in the national defense. It is essential that thoroughly qualified personnel of the highest integrity and background be secured for every position in the Bureau. Our work is the guarding of the internal security of the country, not only in national defense matters, but in the control of those criminals who previously had terrorized the country in waves of bank robbery, kidnaping, extortion, white slavery, automobile theft, and numerous other crimes. There is no doubt whatsoever in the minds of law enforcement officials that should any group be permitted to have the assurance that their activities were being minimized during the present national emergency, we would have a tremendous country-wide wave of crime in that particular category in a very short period of time. It is, therefore, essential that from a national defense standpoint and from a public security standpoint the Bureau maintain its qualified staff at an absolute maximum in order to continue to have control of the criminal element under its jurisdiction.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

_____

Subscribed and sworn to before me this 2nd day of January, 1942.

_____

B. 7. a. b. c.

The Federal Bureau of Investigation is primarily a service agency. We serve our Government and the public. We cannot determine the amount of work which is going to be referred to us. If there is a crime wave of local or national significance at any time the work of the Bureau is increased in comparison. Our identification, laboratory, and crime statistics facilities reflect very definitely the trends in the country. We must have available personnel to properly handle the thousands of fingerprint records being received by us daily. We are at the present time receiving approximately thirty-four thousand sets of prints daily. We must have a scientific staff in the laboratory to examine scientific evidence. We must have an investigative force of sufficient size to handle the work being referred to us. We must have a technical and supervisory staff of sufficient size to render the service to our investigative, identification, laboratory, and statistical staffs so that we may have the benefit of the wealth of information in our various files. The work of the Federal Bureau of Investigation has increased so tremendously that every employee in the Bureau, regardless of his position, is performing a tremendous amount of overtime service. Our Special Agent investigators are performing no less than four hours a day overtime service. In the present emergency we have found it necessary to curtail leave because of inadequate personnel and many of our men have worked over long periods of time without having any time off for vacation.

D. 1.

The additional duties imposed upon the Bureau since the declaration of the national emergency have made it necessary that our staff be more than doubled. From the information furnished under sub-heading B, it will be seen that it is essential to carefully investigate every employee in the Bureau. All of our employees in the performance of their work at one time or the other has opportunity to observe and note the content of confidential investigative reports, the publication of which would be most detrimental to the national safety. We have had considerable difficulty in securing sufficient employees. We find that out of applicants who file application, we are successful in appointing about one out of every one hundred. It, therefore, means that if we lose an employee after he is fully investigated and is being given training or has been experienced, we must again consider on an average, one hundred persons before he can be replaced. In the accelerated program of the Government it is essential that the Federal Bureau of Investigation work at top speed to keep abreast of its duties and investigation of matters pertaining to national defense, its regular activities, and its most important and essential identification activities at this time.

D. 5.

At the present time the Federal Bureau of Investigation is employing additional qualified persons as rapidly as they can be found. The assembled Congress has in the past several months passed several bills which will increase even to a greater extent our present volume of work. The needs of the service as to employees fluctuate with the periods of stress in the country.

D. 6. a.

Special Agents of the Federal Bureau of Investigation are given twelve weeks of training which embraces five hundred and thirty-five hours of study. During that period of time they are trained not only in investigative techniques and procedures but are qualified in the handling of firearms, mechanical devices, and technical devices in use by the Bureau. After entering the field service after training, their skill, of course, increases with their length of service in the field.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Gentlemen:

Reference is made to the Selective Service status of Mr. Joseph L. Schmit, who is duly registered at your Board. You will recall that under date of January 2, 1942, D.S.S. Form 42-A was furnished to your Board requesting that he be granted occupational deferment, and as a result thereof, he was placed in Class II-A until July 14, 1942.

Mr. Schmit is still employed by the Federal Bureau of Investigation, and it has been impossible during the deferment period to effect any replacement for him. As you have been previously advised, he has been employed in this Bureau since January 6, 1941, and is a trained Special Agent. I desire to call your attention to the Local Board Release Number 75, issued by General Hershey of the National Selective Service Headquarters under date of December 29, 1941, advising your Board that the above listed position is one of the critical positions in this Bureau and requesting your cooperation in granting deferment whenever possible to do so. His removal for induction at this time would cause an impairment of the work we are now performing in order to guarantee the internal security of this country. I desire, therefore, to request that Mr. Schmit be granted additional deferment in Class II-B.

116-7738

I appreciate your previous cooperation in this matter, and should there be any additional information you may desire with regard to this case, please do not hesitate to call upon me. Of course, I shall keep you promptly advised as to any change in the occupational status of this registrant.

REMARKS: Interviewing Official - Mr. Wacks

"This Agent presents a very neat appearance. Although small in stature, he has a very good approach and is apparently a sincere, conscientious and serious type of individual. He stated he is very satisfied with his present assignment in New York City.

"Agent Schmit, however, brought to my attention the fact that his wife during November and December, 1941, was troubled with an acute condition known as pectoritis (phonetic), a skin disease; that Doctors are of the opinion that the condition is due to a change of climate. It may be noted that Agent Schmit was transferred to New York City on October 19, 1941. He indicated that in the event the condition is recurrent he would request the Bureau for a transfer to a climate which would benefit his wife. Schmit was advised that in the event the condition should recur, he should promptly bring it to the attention of his SAC and consideration would be given to his request; that the Director desired both he and his wife to be perfectly contented and satisfied in their assignment and the Director would do everything reasonably possible to assist him in this matter.

"In connection with the In-Service School, Schmit indicated he had received a great deal of benefit from the lectures given by the various Supervisors. I would classify Agent Schmit as a good Agent."

Very truly yours,
H. H. Clegg

JOSEPH L. SCHMIT, SPECIAL AGENT, GRADE CAF 10
SPECIAL EFFICIENCY RATING AS OF AUGUST 22, 1942

Special Agent Schmit entered on duty as a Special Agent with the Bureau on January 6, 1941. He has been assigned to the New York Field Division since October 19, 1941. This agent has been assigned to the Criminal Desk in the New York Field Division and has had success in the handling of various cases particularly those involving the Interstate Transportation of Obscene Literature.

This agent, although small in stature, presents a neat personal appearance and a very businesslike manner. He follows out any instructions given to him very promptly and thoroughly. He is very enthusiastic in his work and performs any necessary overtime on his own initiative. He turns out a good volume of work. It is believed that he is very loyal to the Bureau. He appears to have the ability to analyze a set of facts and bring them to a logical conclusion. He is qualified in the use of firearms and it is believed that he is the type that can be used on dangerous assignments. His spirit is excellent and in my opinion he is entitled to the rating of a very good agent.

REMARKS

On 3/4/41 he was assigned to the Dallas Office. On 9/6/41 SAC Kitchin said that he might be considered as shy at first but had the type of personality that was impressive and grew stronger the longer one knew him; that he was above the average investigator for his length of service; that his reports were clear and concise; that in offering testimony he was slightly nervous for his first experience but made an excellent account of himself on the witness stand; and that in view of his intelligence might develop administratively with further experience. On 10/1/41 he was reallocated to grade CAF-10 at $3500 per annum.

On 10/19/41 he was transferred to the New York Office. On 12/16/41 Assistant Director Foxworth said that he was accurate, dependable and loyal, and accomplished an average amount of work; that he had some forcefulness and average aggressiveness; that his work required some supervision and he had been assigned to general criminal investigations; that he planned his work well and might be classified as a good Agent.

On 3/26/42 Mr. Wacks who interviewed this Agent during In-Service Training from 3/9 to 3/20/42 said that although he was small in stature, he had a very good approach and was apparently a sincere, conscientious and serious type of individual; and that he would be classified as a good Agent.

On 3/31/42 Assistant Director Foxworth gave him an adjective rating of good and said that he was enthusiastic in his work and followed his cases very closely to a logical conclusion; that his spirit was excellent and he appeared to plan his work well.

Gentlemen:

Reference is made to the Selective Service case of Mr. Joseph L. Schmit, who is duly registered at your Board as Order Number 3201. Dear Sir:

It is observed that during the course of the recent inspection of the New York Field Office, you made a grade of 83 on the Manual of Instructions.

This, of course, is an unsatisfactory rating and it reflects insufficient information concerning the Bureau's instructions. This is a condition which you must correct. You should begin immediately a systematic study of the Bureau's manuals so that you will be able to pass any future examinations.

It is obvious that an Agent cannot perform his duties satisfactorily unless he has a proper knowledge of the fundamental rules and procedures. The Bureau must insist that in the future you attain the required standard.

Dear Sir: PERSONAL AND ~~CONFIDENTIAL~~

It is my desire to advise you of certain facts surrounding a personal problem which has arisen since I have been assigned to the New York Field Division.

At the time I entered on duty on January 6, 1941, as a Special Agent I had no reservations as to any office to which the Bureau desired to assign me. Since that time, however, certain conditions have arisen which I am bringing to your attention at this time.

After my arrival in Dallas, Texas, my first office of assignment, I met and married my wife, Virginia Katherlyn Schmit, and on October 19, 1941, we arrived in New York City for assignment at the New York Field office. Approximately six weeks after our arrival in New York City, my wife developed a skin disease known as "pityriasis roseo" which has necessitated her taking starch baths since that time. The doctor has stated that this condition is caused by the climate peculiar to sea coast cities. In addition, my wife has developed sinus trouble and has suffered as a result of a series of colds during the past two winters, which have made it necessary for her to remain indoors and in bed a great majority of the time. The doctor who has been treating her has advised that these conditions probably will exist as long as we remain in this climate. At the present time we are expecting a baby in September and all of the above ailments have made my wife quite miserable.

Since the winter season is nearly completed, I had anticipated delaying a request for transfer until later in the year but another circumstance has arisen which I desire to call to your attention. My father became seriously ill in November, 1942, and since that time has been confined in the Bartron Hospital, Watertown, South Dakota. I have received advice recently that he is not expected to live much longer, although

his illness may be a lingering one. He is completely paralyzed at the moment. If possible, I would appreciate an opportunity to be assigned to an office which would enable me to visit him as often as possible. The distance between us at this time does not make this desire financially feasible.

A transfer to the Sioux Falls office, of course, would place me nearest to my father, but the extreme cold in that territory undoubtedly would create the same problems so far as the health of my wife is concerned as in New York City. My office of preference is Dallas, Texas, which is my wife's former residence. In the event consideration can be given to my request, an assignment to the Dallas office will be appreciated. If this is not possible, however, an assignment to either the Oklahoma City or Omaha offices is being suggested.

I am fully aware of the numerous hardships undergone by the men in the armed forces, but I am making this request in all sincerity. From a personal selfish viewpoint I prefer the type of work and experience afforded by my present assignment, but this request is being prompted by the health and happiness of my wife and father.

I desire to express my sincere appreciation for any action you deem appropriate as a result of this letter.

Transfer to Dallas City 1-10 V.

Sincerely yours,

Joseph L. Schmit

Dear Mr. Schmit:

I have your letter of February 22, 1943, advising me of the condition of your wife and father and your request that you be considered for a transfer to the Dallas, Oklahoma City, or Omaha Field Divisions.

It is indeed a pleasure for me to arrange a transfer for you to the Oklahoma City Field Division and I have issued the necessary instructions effecting the change.

I want you to know I appreciate your bringing this matter to my attention and I hope this transfer will be a source of comfort to you and your father and most beneficial to Mrs. Schmit.

With kindest personal regards.

Sincerely,

ANNUAL EFFICIENCY REPORT

Special Agent Joseph L. Schmit entered the service of the Bureau on January 6, 1941 and has been assigned to the New York Office since October 19, 1941, having previously been assigned to the Dallas Division.

The above named Special Agent, although somewhat slight in appearance, is a neat dresser and has a satisfactory personality to impress persons whom he contacts. He is an enthusiastic and energetic worker and exhibits more than the average amount of initiative and resourcefulness in his investigations. He also possesses sufficient aggresiveness and has a satisfactory knowledge of the work of the Bureau. In the recent inspection of the work of the New York Office, he received the grades of 85 in the Manual of Rules and Regulations and 83 in the Manual of Instructions and National Defense Manual, although he has attained the grades of 100, 100 and 98 in the quarterly conference examinations.

According to the rating received from the stenographers in the New York Office, he is a good dictator, having his facts well marshalled prior to instituting his dictation. He can operate an automobile efficiently and has passed the New York State automobile driver's license test. While no opportunity has been had to observe his conduct while testifying as a witness in federal court, it is my opinion that his personality, behavior and experience are such that he would be in a position to favorably represent the Bureau in such capacity. He is qualified and has satisfactory ability in the use of all Bureau firearms, is attentive, alert and observes all safety precautions and is believed to be temperamentally suited for use on such dangerous assignments where size and ruggedness of stature are not necessary prerequisites to the agent's handling the assignment. He has participated in a number of physical surveillances during the period covered by this report and his ability on such assignments has been found to be very satisfactory. He can operate a typewriter, using the touch system, at the approximate rate of 50 words per minute, but is not qualified to take shorthand. His reports have been found to be very accurate and thorough, both in form and substance, and in conformity with the rules and regulations of the Bureau as to the preparation of reports. In his work, he has exhibited ability to make good contacts for the Bureau, both among law enforcement officials and other persons whom he might meet in connection with the Bureau's work. He also organizes his work in an efficient manner and requires but a minimum of supervision.

This agent has had no experience in handling national defense cases during his assignment in the New York Office, inasmuch as he has been assigned exclusively to conducting investigations in criminal matters. During the period covered by this report, he has conducted investigations in matters pertaining to extortion, illegal wearing of the uniform, impersonation, interstate transportation of obscene literature, perjury and fugitive cases. He has conducted a particularly excellent piece of investigation in connection with the breaking of a large ring engaged in transporting interstate obscene literature of various kinds.

While I have not had the opportunity to observe whether this agent actually possesses supervisory, administrative or executive ability, it is believed from the manner in which he handles his investigations that he possesses possible latent ability along those lines.

Agent Schmit has not been assigned to any technical surveillances during the period covered by this report.

This agent has devoted an average of 2 hours, 51 minutes per day overtime over a period of the past six months, which is about an average amount for the agents assigned to the New York Office, the average of which office has been computed to be 2 hours, 55 minutes per day.

It is my opinion that Special Agent Schmit, with additional experience, should have the satisfactory qualifications to represent the Bureau on an SIS assignment, although, in view of his marital and family status, it is not recommended that he be considered for such assignment at the present time.

It is my opinion that this agent should be classed as a very good Special Agent.

Dear Mr. Schmit:

I have been recently informed of the splendid investigation which you conducted in the case of "Joseph Bennett Harris, with aliases, et al; Interstate Transportation of Obscene Matter." I was particularly impressed by your success in developing a number of informants in the New York City territory which aided in locating the print shop and storage warehouse and in tracing the various shipments made by Krotman and Wertheimer.

I feel that the prosecutive results obtained in this case are indicative of the capable manner in which the Bureau is discharging its law enforcement responsibilities. The outstanding work which you did in the investigation of this case contributed materially to these results and accordingly, I wish to express to you my personal appreciation for the able manner in which you represented the Bureau.

With best wishes and kind regards,

Sincerely yours,

ADDENDUM:

RE: JOSEPH L. SCHMIT
SPECIAL AGENT

1-6-41

This special efficiency report is being submitted in view of the writer's transfer from this Field Division.

Special Agent Schmit is presently assigned as Resident Agent at Tulsa, Oklahoma. This agent's appearance is satisfactory. He has a good personality. His dress is neat and appropriate. I have found that he makes good contacts with local law enforcement officers and the staff of the United States Attorney at Tulsa, Oklahoma, commented favorably on this agent and his work. He has a good knowledge of Bureau policy and proceedure and has used sound judgment in handling his assignments. His assignments are of a general nature, together with security matters and Selective Service cases.

Special Agent Schmit qualifies in the use of firearms and I believe him suitable for use on dangerous assignments. He is a good automobile driver. He is considered to be outstanding in the ability to dictate. This agent's production is above average. I consider him to be an asset to the Bureau as Resident Agent at Tulsa.

There is some indication of native supervisory ability and I believe he will improve in this regard with experience.

SUPERVISOR E. P. EMRICH:
This agent though somewhat slight in appearance, is a neat dresser and has a satisfactory personality in order to impress persons whom he contacts. He is an enthusiastic and energetic worker and shows considerable initiative in his investigations. He is thorough, both in his investigations and his reports. He is handling general investigative matters and requires but a minimum amount of supervision. It is my opinion that this agent is classified as a very good agent.
Status: VERY GOOD

FIREARMS INSTRUCTORS: H. C. FOSTER, et al.
On October 23, 1942 this agent was observed firing the first winter firearms courses. His qualifying score on the rifle was below average. He appears to be average in his ability to handle the prescribed courses, was amenable to instructions and observed the safety precautions. The instructors failed to note anything to indicate that this Agent would be unsuited for the use of Bureau firearms in a dangerous situation.

INSPECTOR PENNINGTON:
This agent is 26 years of age and married. He is in Class 2-B. He was initially assigned to Dallas for eight months on general investigative work and has been at New York since the latter part of October, 1941. His work has been almost entirely on general investigations in connection with Internal Security. He has testified in court. This agent is small, pleasant, does not appear particularly aggressive but does seem to know his cases and to be vitally interested in his work.

This Agent makes a good appearance. He is of small build and his dress is neat and conservative. He is enthusiastic, energetic and has indicated considerable resourcefulness in handling his investigations. Special Agent Schmit has a good knowledge of Bureau policy and procedure and his duties as a Special Agent. He is a good automobile driver and qualifies in the use of firearms. I believe him suitable for use on dangerous assignments. He makes good contacts with law enforcement officials. I have not had an opportunity to hear him testify. I have noted as yet no particular indication of administrative, executive or supervisory ability. He is rated as one of the best dictators in the office.

Inspector Gurnea:

This employee has been Resident Agent at Tulsa, Oklahoma for the past month. Although small in stature, this Agent presents a good appearance. He has a good personality and conducts a very intelligent interview. He has sufficient poise, force and aggressiveness. His volume has been good. The time spent in the office by this Agent has been below average. He was rated as 2d in 39 positions in ability to dictate. His overtime is slightly below average.

This Agent has had considerable accounting experience, although he entered the Bureau on the strength of his law degree. Involved cases definitely would not confuse this Agent. He has supervisory ability. Altogether, I

Dear Sir:

PERSONAL & ~~CONFIDENTIAL~~

On February 22, 1943 I directed a letter to you requesting a transfer from the New York City office to an office in the Southwest in view of the serious illness of my father and the ill health of my wife. My request was granted and soon thereafter I was transferred to the Oklahoma City office where I am assigned at present.

During the intervening months my father passed away. I also desire to bring to your attention the fact that since our arrival in the Southwest, Mrs. Schmit has regained her health completely and no complications were encountered in the birth of our son on September 1, 1943. In view of the fact that the purposes for which I requested a transfer have been served I feel it is my duty to advise you accordingly. Our physician has recommended, however, that Mrs. Schmit remain in a climate comparable to that of the Southwest.

The purpose of this letter is to express my sincere appreciation for the consideration which you gave to my personal request. My present office of assignment has been most pleasant to the personal happiness of my wife and myself. At the same time, however, I desire to inform you of my availability to serve in any capacity which the exigencies of the Bureau's work may demand, since this was my intention and desire when I entered on duty as a Special Agent.

JOSEPH L. SCHMIT

2 Woodbury Sioux City Iowa

Mr. Schmit is a Special Agent and as such holds a key position as designated by the Review Committee of the War Manpower Commission within the meaning of Executive Order 9309. The performance of his duties is essential and critical to the execution of the work assigned by law and Executive Directive to the Federal Bureau of Investigation.

To the Federal Bureau of Investigation is assigned the responsibility of investigating all acts of espionage, sabotage and all actions tending to undermine the internal security of the nation. We must also investigate and enforce all those federal statutes assigned to the investigative jurisdiction of this Bureau such as: bank robbery, kidnaping, interference with the interstate transportation of goods, National Stolen Property Act, White Slave Traffic Act, etc., the enforcement of which are necessary to the preservation of the national health, safety and interest.

To carry on this work it is necessary to maintain a corps of trained investigators. Mr. Schmit is such a trained Special Agent. In the attached Form 42 S further information relative to Mr. Schmit is set forth.

SPECIAL AGENTS

This position has been designated as a key position by the Review Committee of the War Manpower Commission.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-three and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agents that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today. Up to the present time the full complement of Special Agent personnel has not been secured and every effort is being made to secure the necessary additional Special Agent personnel.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

Oklahoma City 2, Oklahoma

Dear Mr. Schmit:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Quantico, Virginia, on November 11, 1943.

This report reflects that you have defective vision in the right eye 20/80; corrected to 20/25 - left eye 20/80; corrected to 20/15.

The Board of Examining Physicians recommends vaccination for smallpox, inoculation for typhoid, and inoculation for tetanus.

It reports that you are capable of performing strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

In order to meet the standards of the Bureau, it is imperative that you have your vision corrected with glasses to 20/20 in each eye. You are instructed to advise the Bureau immediately when you have done this.

For your information, it was determined during this examination that your blood is International Type "A".

Appeal Procedure

Any person entitled to do so may take an appeal to the board of appeal within 10 days after the above date of mailing of Notice of Classification to registrant in either of the following ways:

(1) By filing with the local board a written notice of appeal. Such notice need not be in any particular form but must state the name of the registrant and the name and identity of the person appealing so as to show the right of appeal.

(2) By signing the "Appeal to Board of Appeal" on the Selective Service Questionnaire (Form 40).

When an appeal is taken from the classification or reclassification of a registrant and when such appeal is upon the ground that the registrant should have been deferred by reason of his occupation, the appeal shall be transferred to the board of appeal having jurisdiction over the area in which the registrant is employed, provided all of the following conditions are met (but not otherwise):

(1) The first person to appeal from such classification or reclassification files with his appeal a written request for such transfer;

(2) The written request states in what respect an occupational question is involved; and

The person appealing may attach to his notice of appeal or to the Selective Service Questionnaire (Form 40) a statement specifying the respects in which he believes the local board erred, may direct attention to any information in the registrant's file which he believes the local board has failed to consider or give sufficient weight, and may set out in full any information which was offered to the local board and which the local board failed or refused to include in the registrant's file.

Appeal to the President from classification by the board of appeal may be taken at any time within 10 days after the date of mailing of notice to registrant, provided the registrant was classified by the board of appeal in either Class I-A, Class I-A-O, or Class IV-E and one or more members of the board of appeal dissented from such classification. Otherwise, the decision of the board of appeal is final except when an appeal is taken to the President either by the State Director of Selective Service or the Director of Selective Service on the ground that he deems it to be in the national interest or necessary to avoid an injustice.

Mr. Schmit is a Special Agent and as such holds a key position as designated by the Review Committee of the War Manpower Commission within the meaning of Executive Order 9309. The performance of his duties is essential and critical to the execution of the work assigned by law and Executive Directive to the Federal Bureau of Investigation.

To the Federal Bureau of Investigation is assigned the responsibility of investigating all acts of espionage, sabotage and all actions tending to undermine the internal security of the nation. We must also investigate and enforce all those federal statutes assigned to the investigative jurisdiction of this Bureau such as: bank robbery, kidnaping, interference with the interstate transportation of goods, National Stolen Property Act, White Slave Traffic Act, etc., the enforcement of which is necessary to the preservation of the national health, safety and interest.

To carry on this work it is necessary to maintain a corps of trained investigators. Mr. Schmit is such a trained investigator. In the attached Form 42 S further information relative to Mr. Schmit is set forth.

SPECIAL AGENTS

This position has been designated as a key position by the Review Committee of the War Manpower Commission.

The Federal Bureau of Investigation has been designated as the sole civilian government investigative agency having jurisdiction over the investigation of matters pertaining to national defense such as espionage, sabotage, registration of agents of foreign principals, sedition, treason, and the like, and further, the Federal Bureau of Investigation has sole investigative jurisdiction in a great number of other Federal statutes which embrace bank robbery, kidnaping, extortion, white slave traffic, National Motor Vehicle Theft Act, and numerous others. The investigative work in connection with the above violations is performed by the Special Agent personnel of this Bureau, who are recruited from applicants between the ages of twenty-five and forty. They must be graduates of a law school or an accounting school with the necessary accounting experience, or graduates of a university with extensive investigative experience, or with linguistic qualifications, or have basic educational training and possess satisfactory prior law enforcement experience which will enable them to satisfactorily perform the duties imposed upon them. For certain of the scientific investigative work, Special Agents are secured who primarily are qualified in the sciences, such as ballistics, chemical analysis, spectography, cryptography, mineralogy, metallography, toxicology, and other like sciences. Applicants for appointment to the position of Special Agent must meet the physical standards and requirements for this position, which are exceedingly high. They must have vision of no less than 20/40 in one eye, 20/50 uncorrected, both eyes to be corrected to 20/20. They must have no color deficiency whatever.

Special Agents of the Federal Bureau of Investigation undergo a rigorous training program. All newly appointed Special Agents in the Federal Bureau of Investigation attend training classes for a period of sixteen weeks; the hours of training are from 9:00 a.m. to 9:00 p.m. daily, which course of study is equivalent to two full years of college study. During this period of training, they are thoroughly instructed in the basic rules and regulations and jurisdictions of the Federal Bureau of Investigation. They must satisfactorily pass numerous written examinations during their period of training. If a trainee fails to pass any of these examinations, he is dropped from the school.

The duties of a Special Agent of the Federal Bureau of Investigation are most arduous. They must be available at a moment's notice to go to any part of the United States or to any assignment outside the United States. The hours of duty for these employees are such that they must be in excellent physical health. The average work week for a Special Agent of the Federal Bureau of Investigation is no less than seventy hours. The work of a Special Agent, regardless of his particular qualification, is such that he cannot lead a sedentary or well regulated life. Due to the small number of Special Agents of the Federal Bureau of Investigation presently handling the work under the jurisdiction of the Federal Bureau of Investigation within and without the continental United States, it is necessary that the entire staff be highly mobile.

Special Agents are required to be able to conduct investigations in more than 100 types of cases, including espionage, sabotage, subversive activities, frauds against the government, kidnaping, extortion, bank robbery, White Slave

Traffic Act, etc. They are trained in and required to maintain constant skill in the use of highly technical equipment, technical processes, such as those necessary for the development of latent fingerprints, concealed or obliterated numbers upon firearms, to understand the use of code messages, to conduct physical surveillances of subjects of espionage and similar cases, sometimes for periods of many months, and when necessary, to assume a necessary character to enable them to fit in an undercover capacity into the activities and operations of groups such as foreign agents, who are engaged in thwarting the war effort.

The arduousness and importance of the work of Special Agents of the Federal Bureau of Investigation was readily recognized by the military and naval leaders. The Chief of the Bureau of Navigation, for the Secretary of the Navy, requested Special Agent employees of the Federal Bureau of Investigation to submit their resignations from reserve commissions held by them in the naval services because it had been determined that those Special Agents could better serve their country in their present assignments than if they were to be called into active naval service. The Secretary of War, in 1942, addressed personal communications to 168 Special Agents of the Federal Bureau of Investigation who at that time held reserve commissions in the Army. The Secretary of War at that time advised the Special Agent that their employment in the FBI is of such vital importance to the national defense as to necessitate their remaining at their posts of duty despite the fact that they held reserve commissions in the United States Army, and the request was made that these Agents, through the proper channels, submit their resignations from their commissions.

General Lewis B. Hershey of the Selective Service System pointed out in his Directive to all Local Boards of December 29, 1941, that Special Agent positions of the FBI were most important and essential to the national health, safety, and interests, and that the national defense functions of the FBI should not be impaired by the removal of trained personnel from critical positions in the Bureau.

The position of Special Agent has always been considered the most critical of all positions in the FBI, since, with the tremendous bulk of work placed upon us due to the war emergency, it is essential that a trained qualified staff be available for the handling of this work. If the Federal Bureau of Investigation cannot continue to retain its personnel in this critical position, aid and comfort would most certainly be given to the enemy and others whose interests are inimical to the best interests of the country today.

I, J. Edgar Hoover, do solemnly swear (or affirm) that I am the Director of the Federal Bureau of Investigation and that the foregoing statements are true to the best of my knowledge and belief.

RE: JOSEPH L. SCHMIT

Annual Efficiency Report

This Agent presents a good personal appearance. He is of slight build, and dresses very neatly at all times. He has a very good personality and has a good sense of humor. He is congenial, and is very well liked by his fellow employees. This Agent possesses force and aggressiveness, and is very resourceful in his investigations. This Agent is an excellent dictator, being rated number one of the entire office. He is a good automobile driver, and should be able to function well on dangerous assignments. He should have no difficulty on a physical surveillance. His file reflects that he has made a good witness in court. This Agent is a good typist, but has no shorthand ability. His reports are very well written, reflecting thorough investigations, set out with a minimum of extraneous material. His reports require practically no supervision. His contacts with law enforcement officers and the general public are very good. He has no hesitancy in initiating his own investigations, and he accepts responsibility and discharges it with a minimum of supervision.

This Agent has been assigned to both general and national defense investigations, and is well qualified to handle any of them. This Agent has had no opportunity to demonstrate supervisory or administrative ability; however, I believe he possesses these qualities in view of the supervision of his own work, which he has handled very satisfactorily.

This Agent has not been assigned to any technical surveillance during the period of this report.

SAC LOGAN: This Agent presents a very good personal appearance, dresses neatly, is congenial, has a good personality and is well liked by his fellow employees. He possesses initiative and forcefulness and is aggressive. He is an excellent dictator, and one of the best report writers in the office. He is a good automobile driver, and has made a good witness. He could handle a dangerous assignment or operate on a physical surveillance with ease. His contacts with law enforcement officials and the business world are good. He willing accepts responsibility and discharges same without supervision. He is qualified to handle all types of cases, including bankruptcies, and I am sure he could handle an accounting case if it were not too involved. His volume of work is good, possibly above average. It is recommended that he be given an opportunity to handle added responsibilities. I rate him as excellent.

SAC NATHAN: He strikes me as being a very good agent. He has a good personality and makes a good impression. He is rated as an excellent dictator. I believe he possesses supervisory ability.

RE: JOSEPH L. SCHMIT
SPECIAL AGENT
Annual Efficiency Report

This Agent presents a very good personal appearance. He is rather slight in build. He dresses neatly, has a good personality and a good sense of humor and is congenial and well liked by his fellow employees. He possesses initiative, is resourceful and has sufficient force to handle all of his investigative work with ease. In addition to handling regular Agent assignments he is particularly good on bankruptcy cases or any type of case bordering on accounting inasmuch as he has had considerable experience in accounting work. I would have no hesitancy in assigning an ordinary accounting case to him. This Agent is an excellent dictator, is a very good automobile driver and has testified in court numerous times, making an excellent witness. He should have no difficulty in handling a dangerous assignment, and has operated on physical surveillances successfully. He is a good typist, but has no shorthand ability. His reports are exceptionally well written, being concise and to the point. They require no supervision. His contacts with law enforcement officers, as well as his business contacts, are good. He has no difficulty in organizing and initiating his own investigations. He willingly accepts responsibility and discharges same without supervision. He appears to be in good physical condition, capable of performing continuous hard labor. This Agent has worked on both national defense and general criminal investigations, including sabotage, espionage, internal security and the general run of criminal work. He has handled all types efficiently. He produces a good volume of work, possibly a little above average.

This Agent has had little opportunity to demonstrate or indicate supervisory, administrative or executive ability, but I believe he possesses these qualities and would have no difficulty in handling such type assignments. He is presently and has been assigned as Resident Agent at Tulsa.

In his present classification I consider this Agent excellent, and it is recommended that he be given an opportunity to handle assignments requiring additional responsibilities.

Dear Sir:

Cash

For inclusion in the fund to be paid to the widow or designated beneficiary of any Special Agent of the Federal Bureau of Investigation, United States Department of Justice, who had contributed to this fund prior to February 28, 1946, and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by ~~CHECK - MONEY ORDER~~) the sum of ten dollars ($10.00), made payable to the Chief Clerk of said Bureau, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund, which I understand is to be administered in the following manner:

The Director of the Bureau will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director of the Bureau in pertinent matters. The Chief Clerk of said Bureau shall receive all contributions and account for same to the Director.

Upon the death of any Special Agent, the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Chief Clerk, directing him to pay to the designated beneficiary the sum of $10,000.

RE: PERSONNEL
SAC Letter No. 108, Series 1945,
dated November 28, 1945.

Dear Sir:

Reference is made to your letter captioned as above and my letter to the Bureau dated January 18, 1946, explaining the delay in complying with Bureau instructions set forth in reference letter.

Please be advised that set forth hereinbelow are the names of Special Agents whom I consider potential Special Agent in Charge material, in compliance with your request.

Special Agent RALPH T. HOOD,

Agent HOOD entered on duty with the Bureau as a Special Agent March 25, 1935, and was designated as Assistant Special Agent in Charge of the Oklahoma City Office on May 20, 1938. He acted in this capacity until he was transferred to the Dallas Field Office September 29, 1943. A review of his file reflects that a notation was included on the copy of his transfer letter to the effect that his services were not to be utilized on supervisory or administrative duties.

I am of the opinion that Agent HOOD possesses more executive, administrative and all around ability than any other Special Agent assigned to this office. He possesses a pleasing personality, gets along well with his fellow employees and is ever on the alert to protect the Bureau's interests. He presents a good appearance, is intelligent, exercises good judgment and is an outstanding contact man. He possesses the ability to serve in any type of territory or office; of course, his services could be better utilized in the southwest as he is a native of this particular section of the country. His physical condition is his only apparent deficiency as he has encountered some difficulty with his hearing. Agent HOOD is interested in the Bureau and contemplates making its work a career.

In my opinion Agent HOOD is capable of assuming the duties of a Special Agent in Charge.

To Director
From SAC, Oklahoma City

RE: PERSONNEL

Special Agent JOSEPH M. CULP.

This Agent presents an average appearance, is intelligent, possesses a pleasing personality and his contacts are average. I do not feel that he would encounter any difficulty in becoming acclimated to any particular section of the country. He is loyal, conscientious and is interested in the Bureau. He has indicated he contemplates making the Bureau's work a career. He entered on duty as a Special Agent March 23, 1942, and has served in a supervisory capacity at the Bureau. He possesses far above average initiative, resourcefulness and administrative and executive ability. Since his assignment to this office his services have been utilized in a supervisory capacity, replacing the Assistant Special Agent in Charge or myself. He uses good sound judgment. His appearance in all probability is deceiving, as he does not appear to possess aggressiveness or resourcefulness. His personality and ability grows on one.

I am of the opinion that with experience as an Assistant Special Agent in Charge he would be potential Special Agent in Charge material.

Special Agent JOSEPH L. SCHMIT

Agent SCHMIT entered on duty as a Special Agent January 6, 1941. He dresses neatly and in good taste and has a pleasing personality. He is intelligent, uses very good judgment and possesses the ability to develop contacts. He would be adaptable to serve in any type of territory or office. For some time his services have been utilized in the capacity of Resident Agent at Tulsa, Oklahoma, and his work has proven to be very satisfactory. He is loyal, conscientious and ever on the alert to protect the Bureau's interests. He has indicated some supervisory ability in the marshaling of his work as a Resident Agent. I have not had an opportunity to observe him in a supervisory capacity in the office. Agent SCHMIT is short, but well built and is physically capable of performing arduous duties.

I am of the opinion that Agent SCHMIT should be afforded the opportunity of developing his latent ability in this regard.

RE: JOSEPH L. SCHMIT
SPECIAL AGENT
ANNUAL EFFICIENCY REPORT

Agent Schmit makes a nice appearance, dressing neatly and in good taste. He possesses above average initiative, resourcefulness and aggressiveness. He is rated as excellent in dictation by the stenographers in this office. He is a competent automobile driver and a very good witness in court. He is capable of performing on dangerous assignments and handling physical surveillances. He is above average in the use of a typewriter, but takes no shorthand notes. His written reports are well phrased and reflect adequate investigative technique. He is ever on the alert to protect the Bureau's interests. He is intelligent, loyal, conscientious and affable. His contacts with law enforcement officials and business representatives are very good. He possesses the ability to organize and initiate his investigations. He accepts responsibility and discharges same without supervision. He is physically capable of performing arduous duties. As Resident Agent at Tulsa, Oklahoma, he has been afforded an opportunity to handle practically every type of criminal investigation, as well as national defense, over which this Bureau has jurisdiction. He has for some time past been handling all Communistic matters in Tulsa, and has proven himself capable of handling confidential informants. In addition to this he has produced an above average volume of work in criminal matters. Due to lack of experience, and not because I doubt his intestinal fortitude, I would hesitate to use his services in leading a group of Agents on raids and dangerous assignments. Agent Schmit possesses accounting ability, although he is not classified as an accountant in the Bureau's records.

Agent Schmit was recently recommended by me for additional responsibility, and the Bureau was advised that I was of the opinion he possessed supervisory and administrative ability and should be afforded an opportunity to develop further in this regard.

RE: PERSONNEL
SAC Letter No. 51, Series 1947,
Section (B)

Dear Sir:

Set forth hereinbelow are the names of Special Agents presently assigned to the Oklahoma City Office who, in my opinion, are capable of developing into Special Agents in Charge.

Special Agent JOSEPH L. SCHMIT.

Agent Schmit entered on duty as a Special Agent January 6, 1941. He dresses very neatly and in good taste. He possesses a very pleasing personality and exercises good, mature judgment. His contacts with law enforcement officials and business representatives have been outstanding. He is very intelligent, ever on the alert to protect the Bureau's interests and is adaptable to serving in any territory or office. He has for some months past been assigned as Resident Agent at Tulsa, Oklahoma. Numerous favorable comments regarding his ability have been brought to my attention. He is familiar with the Bureau's policies and procedures. He is loyal, conscientious and well liked by his fellow employees. Although he is short in stature, he is well built, and is physically capable of performing arduous duties. The volume of work produced by him is far above average and requires no supervision. He diligently pursues his investigations. Through his contacts and sources of information he develops more new cases than the majority of Special Agents develop. In my opinion he does possess latent administrative and supervisory ability.

Agent Jeter entered on duty as a Special Agent March 2, 1942. He dresses neatly and in good taste. He possesses a pleasing personality and exercises extremely good judgment. He is loyal, conscientious and ever on the alert to protect the Bureau's interests. Numerous favorable comments have been heard regarding his ability as a police instructor. In addition to being an approved police

instructor, he is an approved Bureau speaker and records system surveyor. He is capable of handling any type of investigation over which the Bureau has jurisdiction, but is especially adapted to the more dangerous types of cases. His investigations are thorough and his completed work requires practically no supervision. He exercises sound, mature judgment. He is well liked by his fellow employees and would be capable of handling personnel. His contacts with business representatives, police officials and the underworld have been extremely satisfactory. He is physically capable of performing arduous duties and is available for assignment in any part of the country. I am sure he contemplates making a career of the Bureau's work.

JOSEPH L. SCHMIT
SPECIAL AGENT
SPECIAL EFFICIENCY REPORT

This efficiency report is occasioned by the recent transfer of captioned employee from Oklahoma City to Washington, D. C.

Agent Schmit presents a very neat appearance, dresses in good taste and possesses a very pleasing personality. He has exhibited initiative, resourcefulness and aggressiveness. He remains ever on the alert to protect the Bureau's interests. He is amenable to suggestions, affable, loyal, conscientious and well liked by his fellow employees. For the past several years he has been assigned as Resident Agent at Tulsa, Oklahoma, an assignment which he has handled in a commendable manner. Through this assignment he has been afforded an opportunity to handle every type of investigation over which the Bureau has jurisdiction, including accounting cases. His completed work requires practically no supervision. He is well versed in the Bureau's policies and procedures. He exercises extremely good judgment. He is rated as excellent in dictation by the stenographers in the office. He possesses above average typewriting ability, but takes no shorthand notes. His completed reports reflect that he possesses more than adequate investigative technique. His contacts with law enforcement officials and business representatives have been exceptionally good. He accepts responsibility and discharges same without supervision. He is capable of performing arduous duties. He has handled considerable domestic Communism and some Soviet Espionage investigations.

Agent Schmit has indicated more than average supervisory, administrative and executive ability. Other than supervising his own work, however, very little opportunity has afforded itself to develop him further in this regard. I consider his possibilities in the Bureau unlimited, and I classify him as an excellent employee.

U. S. GOVERNMENT PRINTING OFFICE 16—26177-5

Washington, D. C.
October 22, 1947

Mr. John Edgar Hoover
Director
Federal Bureau of Investigation
Washington, D. C.

Dear Mr. Hoover:

It is with considerable regret that I find myself forced to write this letter to you in connection with a personal problem which has arisen in connection with my transfer from the Oklahoma City office to the Bureau as a Supervisor. I am setting forth certain factors which have created this problem and have necessitated my request for a transfer to the Dallas office.

On June 30, 1947, I received a transfer to the Bureau. At that time I was assigned as Resident Agent at Tulsa, Oklahoma. On that date also, my family and I were in the process of attempting to locate another place to live due to the fact that we had received an eviction notice to move prior to August 1. At the same time my wife's parents, who reside at Dallas, Texas, were forced to leave the house which they were renting by July 15, 1947, because their home had been sold to an ex-G.I. who desired immediate occupancy. My wife's parents are elderly and to a large extent are dependent on me. In addition, they both need medical attention in the near future and under the present circumstances I am unable to provide this to them. Frankly speaking, they are not in a position financially to maintain their own home at today's high rental costs.

The above situation necessitated immediate action in view of my transfer to the Bureau on June 30 of this year for two reasons. I had to provide a home for my father and mother-in-law, as well as for my own family during the interim that would be necessary for me to locate a home here in Washington. Consequently, I felt that the only solution was to buy a home in Dallas, Texas, which I did on July 3. After moving both families into the house in Dallas, I proceeded to Washington while my own family has remained in Dallas.

RECORDED

67- 116851-94

Since my arrival in Washington, D. C., I have attempted to locate a home for my family here. I realized that it would be difficult to maintain two homes but desired to try, at least, to fulfil my obligation to serve in the Bureau as a Supervisor and to obtain the experience which can be had only at the Seat of Government. Frankly, I have discovered that

NOV 15 1947

FEDERAL BUREAU OF INVESTIGATION

rentals are so high here that they prohibit my maintaining two places of residence. My present income just doesn't permit it.

My wife and I have discussed this matter thoroughly and while I believe her parents would be willing to come to Washington and leave their former home and their lifetime friends, I do not believe they would be happy here nor do I feel that it would be fair to them. I am fully cognizant of the fact that if I desire to keep advancing in the Bureau, which I sincerely hope to do, I must be in a position to accept the transfer which any advancement might necessarily bring. Since I plan to make the Bureau my career, I feel certain that you will realize that it is difficult for me to make this request. As soon as this financial problem alleviates itself, you are assured that I shall make that fact known to you.

Any consideration which you feel you may give to this request will be gratefully appreciated.

Respectfully,

Joseph L. Schmit

Special Agent Schmit has submitted a request for a transfer to the Dallas Division. It is to be noted that Agent Schmit reported as a Supervisor at the Seat of Government on July 18, 1947, he having been previously assigned to the Oklahoma City Office. Schmit in his letter stated that he received the transfer to the Seat of Government on June 30, 1947 and on that date he was in the process of attempting to locate another place to live due to the fact that he had received an eviction notice. At the same time his wife's parents who reside at Dallas, Texas, were forced to leave the house in which they were residing, his wife's parents are elderly and to a large extent dependent upon him, that they both needed medical attention in the near future and in view of the fact that immediate action was necessary and he had to provide a home for his mother-in-law and father-in-law as well as for his own immediate family, he felt the only solution was to buy a home in Dallas, Texas, which he did on July 3.

Schmit said after moving his in-laws and his wife and child into the house in Dallas he proceeded to Washington and since his arrival here he has attempted to locate a home for his family. He said he has discovered that rentals are so high here that they prohibit his maintaining two places of residence. He also stated that he does not feel he should purchase a home here because he does not believe that his wife's parents would be happy here. He requests, therefore, that he be transferred to Dallas in spite of the fact that he is anxious to advance in the Bureau's service and as soon as his financial problem alleviates he will make that fact known to the Bureau.

67-116851-95
NOV 15 1947
FEDERAL BUREAU OF INVESTIGATION

I advised Special Agent Schmit that I had talked to SAC McConnell of the Dallas Office on November 4 and he advised me that he does not need additional Special Agent personnel. I told Schmit that if the Bureau was transferring him from the Seat of Government today that we would assign him to an office where vacancies were urgently needed, such as New York City, Chicago or Los Angeles. I explained to him that if he were transferred to Dallas at this time, it would mean that some Agent already there would have to be transferred out since Dallas would have an excess of Agent personnel. It was suggested to him that he endeavor to find a solution to his problem, possibly by selling his home in Dallas and bring his in-laws and family to Washington.

Frankly I am not convinced that Schmit acted in good faith in purchasing a home in Dallas when he already had a transfer to the Seat of Government for a supervisory position. His position today is exactly what it was when he decided to go ahead and buy a home in Dallas and accept a transfer to Washington. I do not feel that his situation is so acute that he should be transferred to Dallas, thereby displacing some Agent who is already there. Schmit has indicated that he would endeavor to give the situation further consideration with a view to effecting a solution.

RECOMMENDATION

It is recommended that Schmit's desire for a transfer to Dallas be listed but no action be taken to transfer him to Dallas at this time. He has already been informed that the Bureau cannot transfer him to Dallas.

MEMORANDUM FOR THE DIRECTOR

RE: Joseph L. Schmit
Special Agent Supervisor
Internal Security Section
Security Division

I spoke with the above-named Special Agent Supervisor yesterday who had previously made a request to see you. I explained to him that your commitments were such that you were entirely tied up and were unable to see him and asked if I could not be of some assistance.

Mr. Schmit briefly related his reasons for requesting a transfer to Dallas, Texas, last month, and pointed out that he fully understands why it is not practical or possible for the Bureau to send him to Dallas, but stated that he would like for you to know that he is sincerely interested in what he is doing and would like to be permitted to remain in his present supervisory position and is hopeful that his transfer to Cleveland could be cancelled. He stated that he fully understands and is entirely in agreement with the Bureau's procedure of placing men where they are most needed and that he is perfectly willing and eager to go any place his services are most needed. He stated, however, that he has enjoyed his work in the Internal Security Section very much, is learning a great deal about Bureau policies which he realizes he could never get in the field and he would like to be permitted to remain here long enough to become thoroughly familiar with the Bureau's policies and procedures.

I told Mr. Schmit why it was not possible for his request for transfer to Dallas to be granted in the first instance and, further, that I wanted him to know that the Director was thoroughly sympathetic with his problem, that whenever any of the Bureau personnel would take up a problem with the Director he made every effort to assist them with that problem consist with the best interests of the Bureau and that in his case since it was not possible for him to go to Dallas it was not believed that he would be entirely happy nor would he be able to do his best work if it were necessary for him to remain in Washington as a supervisor and remain separated from his family. I further pointed out that as is true in most supervisory positions in the Bureau he could not expect to remain here over ten or twelve months, and that, of course, he would again be faced with the problem of moving and that it was thought that his best interests would be served, as well as the Bureau's, if he were at this time transferred to Cleveland where he might reasonably expect to remain for a longer period of time and no doubt be able to work out some arrangements whereby his family could join him.

Mr. Schmit stated that he was appreciative of the Bureau's position and consideration in this regard. He stated, however, that he is extremely interested in the work in the Bureau and in progressing further in the Bureau, and that he is extremely eager to get the experience that will be afforded to him as a Bureau supervisor. Further, he is willing if necessary to remain separated from his family indefinitely, but that he is being granted a short period of leave to go to his home at Christmas time and he is quite confident he will be able to sell the house he has purchased in Dallas and rent for his wife's parents a cheaper place to live which will enable him in turn to work out suitable arrangements here. It appears that his father-in-law has a very small income derived from a small business in Dallas. He remarked that he bought the house in Dallas at the time he was transferred here in desperation since he did not have sufficient time to look around for rental property and it was essential that he find them a place to live. He has now had sufficient time to think the matter out and is confident that he can work out his personal affairs so as not to interfere with his work.

This employee makes a very favorable personal appearance and I believe is very sincere. He has an excellent record in the Bureau. I have checked with his immediate supervisors who inform me that he is an excellent supervisor, and, as a matter of fact, is considered an outstanding employee in the special memorandum unit of the Internal Security Section, being extremely hard working, accurate, and conscientious.

I told Mr. Schmit that I would convey his message to you but that I could not give him any encouragement that his transfer to Cleveland would be cancelled since the matter had been carefully considered in the first instance.

RECOMMENDATION: I was impressed with the sincerity of this employee, and in view of the fact that he is performing excellent work as a supervisor I think the best interests of the Bureau would be served by permitting him to remain in his present assignment and it is, therefore, recommended that his transfer to Cleveland be cancelled.

Respectfully submitted,

G. A. Nease

I concur.

SUBJECT: SUPERVISORS SCHOOL J. L. SCHMIT

There is attached hereto a class roll of the Supervisors that we were informed would attend the supervisor's class today. I opened the school in the Identification Building at 9:00 A. M. There were only four supervisors present, Messrs. M. C. Clements, John J. Flanigan, R. J. McNair and J. E. Newby, all from the Investigative Division. No others were present. After concluding my lecture at 9:30 I waited for several minutes and then in the absence of the next instructor began to telephone in order to arrange for the next instructor to appear before the class. By 9:55 A.M. no instructor had shown up and I dismissed the class and told them to return to their supervisory desks and cancelled this school for the rest of the day.

*SECURITY DIVISION

PURPOSE:

The purpose of this memorandum is to recommend the appointment of Supervisor Joseph L. Schmit as Number One Man of the Internal Security Section. His appointment will be a replacement for Mr. W. V. Cleveland who is under transfer as Assistant SAC to the Indianapolis Office.

DETAILS:

Mr. Cleveland, the Number One Man of the Internal Security Section, is presently under transfer to the Indianapolis Office as Assistant SAC. In order that the Internal Security Section will not be without the services of a Number One Man, I suggest that immediate consideration be given to the appointment of Supervisor Joseph L. Schmit to the position of Number One Man in the Internal Security Section.

RECORDED 67-116837-105

Mr. Schmit has been a Special Agent since January 6, 1941, and has been assigned to the Internal Security Section since July 18, 1947. He developed rapidly as a Bureau Supervisor and for the past ten months has been used as a relief man for the Number One Man of the Internal Security Section. He has also, on occasion, acted as relief man for the Chief of the Section. During the times he acted in charge of the Section and as relief for the Number One Man, he definitely demonstrated that he possessed both administrative and executive ability. He has an excellent knowledge of Bureau policy and has the confidence and respect of the personnel assigned to the Internal Security Section.

Mr. Schmit is an indefatigable worker and has proved himself to be an intelligent, enthusiastic and completely loyal Bureau employee. He has an excellent personality, makes a good personal appearance, has a friendly disposition and is well liked by the other employees in the Section. He has all the necessary qualifications to enable him to function satisfactorily as a Number One Man of the Internal Security Section.

RECOMMENDATION:

Letter written 3-16-49

In view of the above, it is suggested that you consider Mr. Schmit for the position of Number One Man of the Internal Security Section.

Up to a few months ago, he also, as said Section Chief, handled the Espionage Section. Prior to that time he was Number One Man serving as assistant to the Section Chief. He was a Supervisor prior to that time and as a result of the experience and the activities in which he participated he has an over-all knowledge of Bureau policies and operations. He is a hard worker, industrious, sincere and has demonstrated his ability to get along with others. He has demonstrated administrative ability in that he is capable of organizing the work of his section and balances his needs against the needs of the entire Division. He has consistently been given a rating of excellent.

WILLIAM V. CLEVELAND

Mr. Cleveland presently serves as Number One Man in the Internal Security Unit and for the past two months, during the illness of the Section Chief, he has actually served as Section Chief. He has had experience as a Supervisor, has had considerable field experience and has served in an administrative and executive capacity in the field. He knows Bureau policy and makes a practical application of policy, regulations and instructions. He has been consistently rated excellent in the performance of all duties assigned to him.

ROBERT W. WALL

Mr. Wall is presently serving as Section Chief of the Loyalty Section of the Security Investigative Division. In the past he made an excellent record in SIS work. As Section Chief he has been confronted with the problem of the Loyalty Program which involved establishing proper policy and the handling of a large volume of work with a minimum available time and with absolute regard for accuracy and proper judgment on all occasions.

JOSEPH J. CASPER

Mr. Casper serves as the Number One Man in the Loyalty Section. Prior to the time he was made Number One Man he was a Supervisor in the Internal Security Unit where his work was regarded as decidedly above average so that he stands out among others whose performance was uniformly rated excellent. He is aggressive and forceful. He is very industrious and most conscientious and sincere; he would do his share under any and all circumstances. He can analyze problems and dig out the proper corrective measures and procedures to eliminate difficulties. His work has not been the subject af adverse criticism. He is rated excellent.

He has proven to be a capable substitute in the absence of the Section Chief. He is the type of employee who can apply policies, practices and instructions. He will do his share and more.

Memo for Mr. Ladd

NATHANIEL R. JOHNSON

Mr. Johnson is a Supervisor in the Loyalty Section. He is described as one of the wheel-horses of the Loyalty Section. He is a hard worker and thinks clearly. He makes an above average personal appearance. He thinks clearly. He is forceful and gives direction to the matters coming under his supervision. He has been uniformly rated excellent.

JOSEPH L. SCHMIDT

Mr. Schmidt is assigned as a Supervisor in the Internal Security Unit. He is frequently assigned as relief for the Assistant Section Chief when he is absent from his desk. The purpose of this memorandum is to recommend that Supervisor Joseph L. Schmit of the Internal Security Section, Security Investigative Division, be considered for promotion from Grade CAF-12 to CAF-13 at this time. This recommendation is being made inasmuch as Mr. Schmit is an outstanding Supervisor, coupled with the fact that he has frequently been assigned as relief for the #1 Desk in the Internal Security Section and has, on other occasions, acted for the Chief of the Section. While it is realized that Mr. Schmit does not meet all of the technical requirements necessary to make him eligible under the rules set forth in SAC Letter No. 146, it is felt that due to the outstanding service he is performing for the Bureau, the nature of which will be dealt with at length in this memorandum, he should be given special consideration for promotion at this time.

Mr. Schmit entered on duty as a Special Agent on January 6, 1941, and spent more than six years in the field, during which time he compiled an enviable record. He has been assigned to the Internal Security Section since July 18, 1947, and is currently assigned to the Special Memoranda Desk.

FEDERAL BUREAU OF INVESTIGATION

Mr. Schmit has demonstrated on numerous occasions that he possesses far greater than the average amount of administrative ability. He is considerably above average in intelligence, has an excellent educational background, possessing degrees in both law and accounting, and has frequently been called upon since his assignment to the Special Memoranda Desk to handle various types of special memoranda which required extraordinary care and accuracy in their preparation. He currently acts as relief for the #1 Desk in the Internal Security Section and in the absence of the #1 Man handles correspondence, assists in reading signature mail and makes decisions in some instances regarding matters of policy when such questions arise.

He is qualified to handle the most complicated investigative matters. His physical condition is such that he could function satisfactorily on any assignment and he is well qualified to supervise or handle any dangerous assignment. He is available for any type of assignment either in special instances or for routine work anywhere his services are needed. His last four efficiency ratings have been excellent and his rating at the present time is also excellent. He is enthusiastic, industrious and is well liked by the other employees in the Section.

THREE

FJB:TD

Mr. D. M. Ladd 3-3-49

During the fall of 1948 I was ill and absent from my office for a period of approximately three months. During this time Mr. Cleveland, the #1 Man of the Section, acted in my place. However, on a number of occasions Mr. Cleveland was called away from the desk and in his absence Mr. Schmit acted as Chief of the Section. In this capacity he turned in a very creditable job and demonstrated beyond any doubt that he possesses administrative ability. In this regard it should be noted that in an annual efficiency rating dated March 31, 1947, SAC Bryce of the Oklahoma City Office stated that Mr. Schmit possessed far more than average supervisory, administrative and executive ability, but due to his assignment as Resident Agent in Tulsa, Oklahoma, no opportunity had afforded itself to develop him further in that regard.

Now that Mr. Schmit has been afforded the opportunity to function in a supervisory and administrative capacity he has developed so rapidly and his work has been so far above the average, it is felt that he should be considered at this time for promotion to Grade CAF 13.

In the event you agree it is suggested this memorandum be forwarded to the Administrative Division for appropriate consideration.

FEDERAL BUREAU OF INVESTIGATION

By memorandum dated 3-3-49, initialed by Mr. Ladd, Mr. Baumgardner recommended Agent Schmit for reallocation to grade CAF-13, pointing out that he was an outstanding Supervisor and had frequently been assigned as relief for the #1 Desk in the Internal Security Section and on other occasions had acted for the Chief of the Section. While it was realized he did not meet all of the technical requirements necessary to make him eligible, it was felt that due to the outstanding service which he was performing for the Bureau he should be given special consideration for reallocation. He possessed a far greater than average amount of administrative ability, was considerably above average in intelligence, had an excellent educational background, and had frequently been called upon since his assignment to the Special Memoranda Desk to write various types of special memoranda which required extraordinary care and accuracy in their preparation. He currently acted as relief for the #1 Desk in the Internal Security Section and in the absence of the #1 Man he handled correspondence, assisted in reading signature mail and made decisions, in some instances regarding matters of policy when such questions arose. He was qualified to handle the most complicated investigative matters, his physical condition was such that he could function satisfactorily on any assignment, he was well qualified to supervise or handle any dangerous assignment, and he was available for any assignment wherever his services might be needed. His last four efficiency ratings were Excellent.

On 3-31-49 Mr. Ladd rated him EXCELLENT and among other things stated that he possessed an unusual amount of initiative, he accepted responsibility without hesitancy and discharged same with an absolute minimum of supervision; he was an industrious, conscientious, intelligent and loyal Bureau employee; and he definitely possessed both administrative and executive ability and was definitely potential SAC material.

On 5-16-49 he was designated as Number One Man of the Internal Security Section.

During the Inspection of the Security Division in June, 1949, Inspector Gurnea said he presented a good appearance, appeared to be very alert, conducted a good interview, expressed himself well and generally created a good first impression. He indicated he was interested in his work and was ambitious. It was believed he was a satisfactory Supervisor and should be capable of handling a considerable volume of paper work. It was believed he would continue to develop in the Bureau's service.

A review of his file reflects that he is qualified to handle the most complicated investigations; his physical condition is such that he could function satisfactorily on any assignment; he is well qualified to supervise or handle any dangerous assignment; he is available for any assignment wherever his services might be needed; and he has received Excellent efficiency ratings for the past 3 years. In addition, it is noted that although Agent Schmit has not had 10 years service as a Special Agent and has not had 3 years continuous supervisory experience he has been a regular supervisor at the Seat of Government since 7-18-47, in which capacity he has served in an outstanding manner, and has frequently been assigned as relief for the #1 Desk in the Internal Security Section, on other occasions has acted for the Chief of the Section. On 5-16-49 he was designated #1 Man of the Internal Security Section of the Security Division.

RECOMMENDATION: It is recommended that Agent Schmit be reallocated to Grade CAF-13, $7432.20 per annum, effective 7-24-49.

SA Supervisor Schmit has advised that on 8-15-49 he discovered that the Bureau badge issued to him, #1641, was missing from the top drawer of his dresser where he had placed it the previous night before retiring. The loss occurred while he was on annual leave at the home of his wife's parents in Texas. The loss was promptly reported by Agent Schmit to the Dallas Division and to the Bureau.

It is the opinion of Supervisor Schmit that the badge was probably taken from the dresser drawer by his five year old son and used in connection with a game of "cops and robbers". However, the Agent has been unable to definitely establish this fact and exhaustive efforts to locate the badge met with negative results.

Mr. Schmit, who is now on vacation at his home in Texas, called Mr. Laughlin from Dallas at 1:45 P.M. today and reported that he had lost his Bureau Badge, No. 1641. Mr. Schmit stated that he first missed his badge around 2:00 P.M. on August 15, 1949. He stated that he definitely recalled having it the day before and remembers putting it in the top drawer of his dresser at home at night time before retiring.

On the morning of August 15 Mr. Schmit was engaged in working around the house while his wife and the other members of his family, except his son, age 5, went out. He said that his son had been playing "cops and robbers" with some other boys of the same age or younger and apparently he took the badge out of the drawer, separated it from some keys which Mr. Schmit kept, and used it in connection with his playing.

Reference is made to the telephone call from the writer to Inspector L. L. Laughlin on August 17, 1949, reporting the loss of Bureau Badge #1641. It will be recalled that at that time the writer was on annual leave at Dallas, Texas, and the circumstances surrounding the loss of the badge were furnished at that time to Mr. Laughlin in view of the Bureau's desire to have such a loss reported immediately after an appropriate search has been made to locate the loss of such property.

As was reported to Mr. Laughlin, this badge was first missed around 2:00 PM on August 15. The writer opened the top drawer of a dresser in his home and ascertained that the keys were loose from the watchchain to which the badge had been kept. The keys were lying loose in the drawer and the badge was missing. The writer has previously reported that it is believed his son, age five, took the badge from the drawer while he and other neighborhood children, between the ages of four and six, were playing "cops and robbers." This drawer is inaccessible to my five year old boy unless he stands on the bed, in which event he could reach this drawer. The writer had always adopted the practice of maintaining his badge while it was not on his person in a place which was believed inaccessible and out of sight.

The writer has questioned his son in considerable detail concerning this loss but has been unable to obtain a consistent story. On occasions he has admitted taking the badge while playing and on other occasions has denied it. The other children were also questioned who were playing with him but at no time was I able to obtain a coherent, consistent story from them. Immediately upon discovery of the fact that the badge was missing, a detailed and comprehensive search was made in the home, yard and surrounding neighborhood of the writer's residence at Dallas. Every item within the house was moved and searched, as well as in the garage, the yard and a reasonable distance in the surrounding neighborhood. This search was conducted by the writer and other members of the family for a period of two days. Subsequent to the time that the Bureau was advised of this loss additional efforts were made to locate the badge by making inquiries in the neighborhood, all of which have resulted negatively. There are numerous places in the immediate vicinity of the writer's home where the badge could have been concealed, such as in the sewer lines, shrubbery and tall grass which is in an adjacent vacant lot. The writer felt that he had exhausted all possible efforts to locate the badge prior to departure from Dallas.

THREE

The writer realizes the seriousness of the loss of Bureau property and sincerely regrets instant loss. My father and mother-in-law are living in my home in Dallas and it is possible, of course, that at some future date they

SUBJECT: PERSONNEL - ADVANCEMENT

In accord with the instructions contained in SAC Letter #80, Series 1949, dated August 16, 1949, there is respectfully submitted as of this date a list of personnel assigned to the Security-Investigative Division to be considered on a long-range basis for further development as administratives and executives in the Bureau. It is realized that all personnel assigned to the Security-Investigative Division are being considered on a long-range basis for development, and at this time there are listed only those who have more clearly indicated consideration at this time for such development.

The following personnel have been eliminated for consideration at this time because they hold positions equivalent to that of Assistant Special Agent in Charge:

Joseph L. Schmit, Number One Man, Internal Security Section
William A. Branigan, Number One Man, Espionage Section
Charles H. Stanley, Number One Man, Loyalty Section
Kline Weatherford, Number One Man, Correlation-Liaison Section

He makes a good personal appearance, is adaptable to working under any conditions, and I feel possesses above average intelligence. He is married, has two children, however, I do not think this would interfere in any way with his being utilized wherever the Bureau might see fit to send him. He has handled a large volume of work on this desk and has demonstrated his ability to act coolly under pressure in his handling of numerous coal strike situations which require continuous and expeditious attention during the time they are in progress. Mr. Lane is intelligent, presents an excellent personal appearance, and has exercised good judgment at all times in the handling of his assignments since becoming a Bureau Supervisor. He possesses the ability to make contact among all types of people and could serve in any Bureau office. Mr. Lane is especially enthusiastic about the Bureau's work and is available for transfer to any place the Bureau may desire to send him.

Mr. Bly's work as a Supervisor on this desk has been outstanding. He is without question one of the best informed men in the Bureau concerning Communist matters generally. He is considerably above average in intelligence and exercises a keen perception in the handling of his assigned duties. He has inaugurated changes in the method of reporting by the field on Communist matters which has inured greatly to the Bureau's benefit. Mr. Bly makes an excellent personal appearance, exercises good judgment at all times, and is well liked by the other employees in the Internal Security Section. He has built up very cordial relations with the Office of Military Intelligence, and his work has often been the subject of commendation. He interests himself in the performance of his duties beyond the average, and develops his relationships with the various contacts not only on a sound official basis, but also on a personal basis. Mr. Reynolds has a keen appreciation for the proper application of Bureau policies and regulations, is very practical, and has demonstrated again and again good judgment. He is intelligent, above average, and has a pleasing personality. He has consistently been rated as excellent.

J. EARL MILNES

Mr Milnes is currently assigned to the Internal Security Section of the Security Investigative Division as a Supervisor handling Security Index matters. The Bureau's Security Index program is highly confidential and complex and Mr. Milnes has demonstrated his ability to handle this assignment most satisfactorily. On February 28, 1950, a six months efficiency report was submitted on Supervisor Schmit in which he was rated Excellent. The attached comments pointed out that Schmit had been assigned as the Number One Man of the Internal Security Section since May 15, 1949, and during the rating period his services had been eminently satisfactory. It was stated that he takes a practical approach to the problems rising in connection with his duties and has an excellent understanding of the matters under his jurisdiction. In the absence of the Section Chief, he has been serving in such capacity and was believed to possess more than the average amount of organizational ability, for demonstrating such ability on numerous occasions. His instructions to supervisors have been clear and he has their complete confidence and respect. During the rating period he accepted and discharged responsibility with an absolute minimum of supervision, and it was the belief of Mr. Baumgardner that Schmit's possibilities for developing as a SAC are good.

A review of Agent Schmit's file reflects that on August 24, 1949, a letter of caution was directed to him as a result of the loss of his Agent's Badge. This loss occured while Schmit was on annual leave in Dallas, Texas, and it appeared probable that his five year old son had removed the badge from the bureau drawer where Agent Schmit had placed it and had lost the badge while at play. However, Agent Schmit was unable to get any indication from the child that the loss occured in the manner supposed.

JOSEPH LUKE SCHMIT

This special efficiency report is submitted to reflect the progress made by Mr. Schmit since his reallocation to Grade GS-13 on July 24, 1949.

Mr. Schmit has been assigned as the Number One Man of the Internal Security Section since May 15, 1949 and during this rating period his services have been eminently satisfactory. He takes a practical approach to the problems which arise in connection with his assigned duties and he has an excellent understanding of the matters under his jurisdiction. In his present position he reads signature mail, routes incoming correspondence, discusses problems of policy with respect to the various investigations handled in the Internal Security Section with the Supervisors assigned to the substantive desks, holds Section conferences in the absence of the Section Chief and has appeared on the Panel Forum before both In-Service and New Agents' classes. He also acts as Chief of the Internal Security Section in the absence of the Section Chief. Mr. Schmit possesses more than the average amount of organizational ability and has demonstrated on numerous occasions his ability to organize and administer to the needs of the Internal Security Section. He gives clear instructions to the Supervisors in the Section and has their complete confidence and respect. He accepts and discharges responsibility with an absolute minimum of supervision.

He is physically equipped to function adequately on any type of assignment and is available for special or general assignment anywhere his services are needed. He possesses a pleasing personality, is well liked and respected by the employees of the Internal Security Section and is a tireless worker who when the occasion demands works long hours without regard for his personal convenience. He is a forceful, aggressive, energetic, enthusiastic and intelligent Bureau employee.

In view of Mr. Schmit's well grounded knowledge of Bureau policy, his ability to direct and organize the supervision of security investigations, plus his energetic and intelligent approach to every day problems, qualify him, in my opinion, to handle the duties of ASAC at this time. At this time it would appear that his possibilities are good for future development as potential SAC material.

PURPOSE:

To answer the Director's inquiry as to who drafted the memorandum from you to the Director dated June 12, 1950, which is attached.

DETAILS:

The memorandum in question was prepared by Supervisors J. L. Schmit and A. G. Jacobs.

I have discussed this matter in detail with these Supervisors and they are exceedingly sorry and disturbed that this memorandum left the impression with the Director that it was disrespectful and surly. They have advised me that the memorandum was intended to be a factual statement of the reason for sending information of this nature to Assistant Attorney General James M. McInerney of the Department and to explain that it has been our policy to send this type of information in the past.

13 JUL 10 1950

JUL 5 1950

Messrs. Schmit and Jacobs now realize that by including the reference to the intelligence agencies the erroneous impression was given that the memorandum was discourteous. These Supervisors asked me to explain that under no circumstances would they have intentionally prepared a memorandum which would give such an impression.

I feel that these men are genuinely sorry and now realize that they did make a mistake in the choice of their language. They both are experienced supervisors and extremely loyal to the Bureau and the Director.

When the memorandum came through my office we should have realized that the language used might have given the impression of being discourteous. We regret that we missed this and will be more alert in the future.

It shows a lack of supervision & review all along the line. It is just such conclusions which can be seized upon at later dates to embarrass the Bureau. I don't intend to be placed in such a position in this type of matter. H.

SUPERVISOR
SECURITY DIVISION

You will recall that Supervisor Jacobs assisted in the preparation of a memorandum with Supervisor J. L. Schmit explaining why a memorandum on Communist Party, USA, International Relations, Internal Security-C, was prepared for transmission to Mr. McInerney, of the Department. The memorandum ended with a gratuitous statement pertaining to sending information dealing with the international situation to other intelligence agencies, as well as to the Department.

I questioned Supervisor Jacobs concerning this memorandum this morning. He explained that the original memorandum to McInerney was prepared by Supervisor H. O. Bly. When the transmittal of the memorandum to McInerney was questioned Bly was at Quantico and Jacobs was asked to submit the memorandum of explanation. He was not familiar with Bly's reason for sending the memorandum to McInerney. Jacobs dictated the first part of the memorandum of explanation, dated June 12. He took the memorandum to Mr. Schmit, the Number One Man in the Internal Security Section, who dictated that portion of the conclusion referring to other intelligence agencies, which was criticized. Jacobs told Schmit he thought that the memorandum should go into greater detail as to the type of information which previously has been sent to the Department, but was told that there was not sufficient time to prepare this. He states that while he did not dictate the conclusion on the second page of the June 12 memorandum, he saw what Schmit had dictated except the last sentence "If it is your desire that this not be done, our policy will be changed accordingly." This final sentence was added by Inspector Leo Laughlin at the instruction of Inspector Belmont, who states that he told Laughlin to add the sentence for the purpose of securing advice from the Director as to future policy. Mr. Belmont admits to me that the phraseology was unfortunate, but that it was certainly not intended to be flippant in any way.

Mr. Jacobs indicated that he was quite distressed concerning this matter and that certainly he had no intention of being flippant in any manner. I was very favorably impressed with Mr. Jacobs and in view of his explanation concerning the preparation of the memorandum I do not believe that he can be held accountable for the manner in which the memorandum finally was sent through.

Supervisor Schmit is on annual leave and I will interview him concerning this matter upon his return to the city next week.

It is obvious Jacobs did not dictate the offensive portion of the memo. H.

Dear Mr. Schmit:

The Bureau is in receipt of the report of the physical examination afforded you at the United States Naval Hospital, Bethesda, Maryland, on March 30, 1950.

In reviewing this report it is noted that your visual acuity has decreased considerably since your last examination and is now 20/400 in the right eye and 20/200 in the left eye, corrected to 20/20 in both eyes. It is further noted that you have defective color perception, which is not considered disabling.

The Board of Examining Physicians of the United States Naval Hospital reports that you are capable of performing strenuous physical exertion and have no physical defects that would interfere with your participation in raids or other work involving the practical use of firearms.

You will recall that Supervisor Schmit and Supervisor Jacobs, of the Security Division, participated in preparing a memorandum dated June 12 explaining why certain data were being forwarded to Mr. McInerney of the Department. I talked to Supervisor Jacobs and submitted a memorandum dated June 22 concerning his participation in the preparation of this memorandum.

I talked today with Supervisor Schmit, who prepared the first sentence on page two of the memorandum in question, which stated " * * * It is felt that it is our responsibility to keep the Department, as well as other intelligence agencies, fully advised of all reliable information coming to our attention bearing upon the international situation * * * ." Mr. Schmit states that it is clear to him that the inclusion of the reference to "as well as other intelligence agencies" was unfortunate and created a wrong impression.

The memorandum of June 12 concluded with a sentence "If it is your desire that this not be done, our policy will be changed accordingly." It was originally thought that this concluding statement in the memorandum was prepared by Supervisors Schmit and Jacobs. As I pointed out in my memorandum of June 22 covering my conversation with Supervisor Jacobs, Mr. Belmont advised me on the same date that the final sentence was added by Inspector Leo Laughlin at Mr. Belmont's instructions and Mr. Belmont stated he told Laughlin to add the sentence for the purpose of securing advice from the Director as to future policy. Mr. Belmont admitted that the phraseology was most unfortunate but that it was not intended to be flippant in any way.

The memorandum of June 16 further explaining who drafted the memorandum of June 12 was not properly prepared by Inspector Laughlin, who did not indicate that anyone other than Supervisors Schmit and Jacobs had participated in preparing the June 12 memorandum. I asked Mr. Laughlin about this. He stated he was sorry this was not explained; that he should have done it but forgot to do so. He states that he is solely responsible for the phraseology utilized in the last sentence of the June 12 memorandum.

THRE

Mr. Belmont, as I pointed out in my memorandum of June 22, came to see me on that date concerning the June 12 memorandum. He stated it was not until I had talked to Supervisor Jacobs on June 22 that he realized that criticism was being directed to the last sentence of the June 12 memorandum "If it is your desire that this not be done, our policy will be changed accordingly." He states that the moment it was brought to his attention that this was subject to criticism he came to my office to explain that Inspector Laughlin added the sentence at his, Belmont's, directions. He claims he missed the point of the matter entirely up to that time.

While the reference to other intelligence agencies was entirely a gratuitous one, it is my opinion that the most grievous error in the preparation of the June 12 memorandum involved the last sentence which was added after the memorandum left the hands of the two supervisors and, consequently, I do not believe that the supervisors should be held accountable for the manner in which the memorandum finally was submitted.

Schmit and Jacobs

CT:DSS

The whole point seems to have been missed. I never raised any question about sending any information to the Intelligence Agencies. I solely questioned the sending of certain specific data in relation to Mohrenschildt. It did not raise any question of over all policy & most certainly no question as to any policy of what was to be sent to Intelligence agencies. Yet in reply to my query I got an inconsequential gratuitous & extraneous memo which in addition was couched in a flippancy of phraseology.

H.

I consider Belmont & Laughlin should be censured for the manner in which this was handled in the memorandum. H.

Mr. Joseph L. Schmit

Dear Sir:

The Bureau has carefully considered the handling of a recent letter received from a member of the United States Senate requesting investigation of two employees of a shorthand reporting firm which was engaged in recording the proceedings of a Senate Committee and it is noted that the action taken by the Bureau in response to this request differed from that taken on a previous request along the same line, although no basis existed for such a differentiation. This error apparently occurred because the previous communication had not been located prior to the taking of action on the second request, and it is noted that you were consulted and concurred in such action.

It is noted that difficulty was experienced in obtaining the first letter but, nevertheless, further and more intensive effort should have been given to finding this letter before determining upon the action in response to the second one. This is particularly true since the wording of the incoming communication raised a definite question as to the extent of the investigations desired which should have been resolved by review of the previous correspondence. Therefore, you will be expected to manifest more considered judgment with respect to such problems handled by you in the future in order that similar errors may be avoided.
